Applicant's Name:
Applicant's Contact Email(s):

The U.S. Army Aeromedical Research Laboratory Gains in the Education of Mathematics and Science (GEMS) program is an extracurricular science, technology, engineering, and mathematics (STEM) outreach activity that engages school-aged students in hands-on, inquiry-based experiments and nurtures students' interest in STEM career fields.

Near-peer mentors prepare materials for implementing STEM experiments, teach experiments to the students, and serve as role models to the students by promoting science and math courses and by acting as expert resources concerning college life and career pathways. Mentors are thoroughly trained in the conduct of the GEMS modules and in basic methods and practices of teaching.
