Contributors	ii
Foreword	xiii
Preface	xv

Part One: Identifying the Challenge

Chapter 1 The Military Operational Environment.....	3
<i>Keith L. Hiatt and Clarence E. Rash</i>	
Current and Changing Roles.....	3
The Demands of Combat	6
Uniqueness of the Tri-Service Military Communities.....	7
Warfighter Demographics.....	8
Army Transformation Plan	13
Battlespace Information, Information Superiority, and Network Centric Warfare	15
The Physical Environment.....	17
Additional Operational Factors.....	18
Psychological Factors	23
The Warfighter, HMD and Cognition.....	24
References.....	24
Chapter 2 The Human-Machine Interface Challenge	29
<i>Gregory S. Francis, Clarence E. Rash and Michael B. Russo</i>	
Human Sensation, Perception and Cognition.....	29
Machine: Helmet-Mounted Displays.....	35
The HMD as a Human-Machine Interface: Statement of the Challenge	41
References.....	42

Part Two: Helmet-Mounted Displays

Chapter 3 Introduction to Helmet-Mounted Displays	47
<i>Michael M. Bayer, Clarence E. Rash and James H. Brindle</i>	
Defining the Helmet-Mounted Display	47
Classifying Visual Helmet-Mounted Display Designs	49
The History of Helmet-Mounted Displays	54
Advantages of Helmet-Mounted Displays.....	58
Limitations and Disadvantages of Helmet-Mounted Displays	61
Helmet-Mounted Display Applications	62
Current and Future Helmet-Mounted Display Programs	72

User Acceptance	103
References.....	103
Chapter 4 Visual Helmet-Mounted Displays	109
<i>Clarence E. Rash, Michael M. Bayer, Thomas H. Harding and William E. McLean</i>	
Optical Designs	109
Image Quality.....	123
Display Technologies.....	131
Unique Issues.....	168
References.....	170
Chapter 5 Audio Helmet-Mounted Displays.....	175
<i>Phuong K. Tran, Bruce E. Amrein and Tomasz R. Letowski</i>	
Acoustic Environment	177
Auditory Signals and Display Formats	178
Head-Related Transfer Function.....	182
Audio HMD System Specifications.....	186
Audio HMD Transmitter Systems	188
Hearing Protection Devices	198
Communication and Hearing Protection Systems	207
Acoustically Transparent Helmet	210
Audio HMD System Design Issues	211
Audio HMD Systems: Closing Remarks	228
References.....	230
Part Three: The Human Visual and Auditory Sensory Systems	
Chapter 6 Basic Anatomy and Physiology of the Human Eye	237
<i>Corina van de Pol</i>	
The Protective Structures of the Eye	237
The Anterior Segment of the Eye	238
The Posterior Segment of the Eye	242
The Visual System Pathways to the Brain.....	244
The Visual Cortex	246
References.....	246
Chapter 7 Visual Function	249
<i>Thomas O. Salmon and Corina van de Pol</i>	
The Physical Nature of Light.....	249
How the Eye Forms an Image.....	251
Refractive Errors and Their Correction	253
Testing the Visual System	256

Spatial Vision.....	256
Peripheral Vision	260
Visual Adaptation to High and Low Illumination	262
Color Vision.....	264
Accommodation.....	268
The Eye's Temporal Responsiveness	271
Temporal Contrast Sensitivity	273
Eye Movements	273
Binocular Vision	274
Conclusion	276
References.....	276
Chapter 8 Basic Anatomy of the Hearing System.....	279
<i>Sumalai Maroonroge, Diana C. Emanuel and Tomasz R. Letowski</i>	
Hearing System.....	279
Outer Ear.....	281
Middle Ear	286
Inner Ear.....	289
Bone Conduction System.....	295
Vestibulocochlear Nerve.....	298
Central Auditory Nervous System.....	299
References.....	303
Chapter 9 Auditory Function	307
<i>Diana C. Emanuel, Sumalai Maroonroge and Tomasz R. Letowski</i>	
Physiology and Function of the Hearing System.....	307
The Outer Ear.....	308
The Middle Ear	311
The Inner Ear	317
Bone Conduction	324
Vestibular System Function.....	325
Central Auditory Nervous System Function.....	325
References.....	329
Part Four: Perception, Cognition and Performance	
Chapter 10 Visual Perception and Cognitive Performance.....	335
<i>José E. Capó-Aponte, Leonard A. Temme, H. Lee Task, Alan R. Pinkus, Melvyn E. Kalich, Allan J. Pantle and Clarence E. Rash</i>	
Brightness Perception	335
Size Constancy.....	337
Visual Acuity	343

Contrast Sensitivity	352
Color Discrimination	356
Attention Capture	359
Motion Perception	365
Monocular vs. Binocular Vision	374
References	380
Chapter 11 Auditory Perception and Cognitive Performance	391
<i>Angélique A. Scharine, Kara D. Cave and Tomasz R. Letowski</i>	
Audition	391
Sound Pressure and Sound Pressure Level	392
Threshold of Hearing	392
Threshold of Pain	399
Area of Hearing	399
Auditory Discrimination	402
Loudness	407
Masking	415
Critical Bands	421
Pitch	427
Phase and Polarity	433
Timbre	434
Sound Quality	439
Perceived Duration	440
Time Error	442
Speech Perception	443
Auditory Spatial Perception	454
Hearing Loss	466
References	469
Chapter 12 Visual Perceptual Conflicts and Illusions	491
<i>Leonard A. Temme, Melvyn E. Kalich, Ian P. Curry, Alan R. Pinkus, H. Lee Task and Clarence E. Rash</i>	
Visual Masking	491
Binocular Rivalry	497
Hyperstereopsis	504
The Concept of Illusions	511
Static Illusions	523
Dynamic Illusions	529
Illusions and HMDs	549
Spatial Disorientation	552
Luning	567
References	570

Chapter 13 Auditory Conflicts and Illusions	579
<i>Angélique A. Scharine and Tomasz R. Letowski</i>	
Perceptual Conflicts and Illusions	579
Auditory Scene Analysis.....	580
Auditory Conflicts and Illusions.....	582
Attention and Illusions.....	594
References.....	595
Chapter 14 Auditory-Visual Interactions	599
<i>Thomas G. Ghirardelli and Angélique A. Scharine</i>	
Multisensory Perception	599
Dominant Characteristics of Audition and Vision.....	599
Interaction of Audition and Vision	600
Auditory-Visual Synergy and Redundancy	602
Multisensory Attention	606
Human Factors Issues in Audio-Visual Displays	607
References.....	613
Chapter 15 Cognitive Factors	619
<i>Gregory S. Francis and Clarence E. Rash</i>	
Methodological Techniques for Studying Cogitation and Perception.....	621
Cognitive Resources	626
Cognitive Functions.....	628
Special Topics.....	646
Case Study 1: Hyperstereo Helmet-Mounted Displays	650
Case Study 2: The Integrated Helmet and Display Sighting System (IHADSS)	654
Applying Knowledge about Cognition to Helmet-Mounted Display Designs	662
References.....	664
Chapter 16 Performance Effects Due to Adverse Operational Factors	675
<i>Clarence E. Rash, Keith L. Hiatt, Robert M. Wildzunas, J. Lynn Caldwell, John A Caldwell, Melvyn E. Kalich, Gregory T. Lang, Ronald P. King and Robert Noback</i>	
Introduction to Stress and Stressors.....	675
Psychological Stress.....	676
Physiological Stress	684
Self-Imposed (Internal) Stressors	699
Environment (External) Stressors.....	718
Ergonomic Issues	762
Summary	776
References.....	777

Part Five: Meeting the HMD Design Challenge

Chapter 17 Guidelines for HMD Design	805
<i>James E. Melzer, Frederick T. Brozoski, Tomasz R. Letowski, Thomas H. Harding, and Clarence E. Rash</i>	
User-Centered Design Focus	807
Optical/Visual Guidelines and Recommendations	808
Visual vs. Auditory Mode for HMDs	824
Acoustic/Auditory Guidelines and Recommendations	824
Biodynamic Guidelines and Recommendations	827
Perceptual and Cognitive Guidelines	836
User Adjustment Recommendations	837
Recommendation Summary	837
References	839
Chapter 18 Exploring the Tactile Modality for HMDs	849
<i>Kimberly P. Myles and Mary S. Binseel</i>	
The Concept of Tactile Interfaces	849
The Physiological Basis of Tactile Stimulation	851
Elements of Vibrotactile Perception	854
Tactile Displays: Factors	858
Tactile Interfaces: Applications	862
Tactile Head/Helmet-Mounted Displays	870
References	872
Chapter 19 The Potential of an Interactive HMD	877
<i>James E. Melzer and Clarence E. Rash</i>	
Why an HMD?	878
Situation Awareness and Cognitive Workload	879
Attention, Cognitive Resources and Cross-Modal Integration	880
Examples of HMD Imagery	883
Measuring Workload and Situation Awareness	888
Using Real-Time Measures to Improve Training Performance	890
Adaptive Automation	891
Summary	892
References	893
Abbreviations and Acronyms	899
Glossary	905
Index	939
